

Eco Multi Solutions Limited is a Nigerian company committed to taking up the challenge of electric power which is one of the most daunting to the Nigerian economy. Our range of products ensures that there is power when it is **NEEDED** and not when **AVAILABLE**. Besides, we provide both the right voltage and the right quantity, to suit every need.

Essentially we have customised solutions for businesses and concerns that are highly sensitive to power failure such as Telecommunications, Airports and Aviation generally, Hospitals, Military Installations, Security Systems, General Public Security and Order, to mention a few.

Besides we have a wide range of solutions that make the home comfortable at all times.

With our crop of carefully selected professionals and partnership with some of the world's most reputable green energy companies, and using highly ethical business practices, we ensure customer satisfaction, all the time.

Our wide range of applications includes:

- Solar Panels
- Solar Lamps such as LVD, LED, Low Consumption Sodium Vapour
- Complete Solar Street Lighting Solution
- Solar Traffic Lights
- Inverters
- Batteries
- Solar Water Pumps
- Home Solutions
- Complete Solar Airport Solutions
- Complete Solar Hospital Solutions
